

SteamGlove™ WASHING INSTRUCTIONS

Recommended Frequency: Daily or as needed throughout the day
Where: 3-compartment sink

1

Inspect for excessive wear or damage. Discard immediately if damaged and replace.

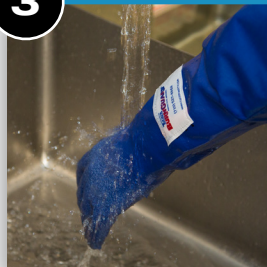

2

Use warm soapy cloth or hand to clean exterior and interior surfaces.

3

Thoroughly rinse / flush cleaning solution from exterior and interior surfaces.

4

Sanitize all exterior and interior surfaces with sanitizing solution. Follow contact time recommended by manufacturer.

Important: Rinse any residual sanitizing solution from apparel / equipment if putting back into service.

5

Pat dry with clean, single use paper towel, or hang to dry on designated Safety Station to air dry overnight if not putting back into service immediately.

QUICK TIP

For faster drying, turn glove(s) inside out and hang to air dry on designated Safety Station.
