

# Ultimate Safety.... Approved for Foodservice

### **Maximum Safety**

The ultimate in wearer protection from multiple heat sources, wet and dry.

#### **Maximum Sanitation**

All of our products are designed to inhibit the growth of bacteria. The Quicklean™ VaporGuard® barrier does not allow anything to stick to it, which prevents soil build up and reduces the risk of cross contamination. Every Quicklean™ product is quick and easy to clean.

#### **Maximum Service**

We design industry-leading products that can be trusted and that offer effective personal protection against burns or cuts throughout foodservice operations. We offer a one-year warranty against manufacturer's defects. If our customers are not 100% satisfied, we will work with them until they are.

#### **Maximum Savings**

Our innovative, high-grade materials protect wearers better for a longer period of time. The mitts last 10 times longer than traditional cotton quilted oven products.

# QuicKlean<sup>™</sup> Conventional-Style Oven Mitt

# ITEM #:

56122, 56152, 56182, 56242

# SIZE:

Medium (additional sizes available upon request)

12", 15", 18", 24"

### COLOR:

Blue with Blue GussettGuard™

# **DESCRIPTION:**

QuicKlean™ Conventional-Style Oven Mitt

# PACK SIZE:

1 each

# **SPECIFICATION:**

QuicKlean™ Conventional-Style Oven Mitt: Tucker Safety Products BurnGuard® Item #\_Text\_\_\_\_. Material: Poly-Cotton (color blue). GussetGuard™ reinforcement. Standard size: Medium (additional sizes available upon request). Standard lengths: 12", 15", 18", and 24". Exposed exterior of the outer shell fabric permanently bonded with flame resistant, effective liquid and vapor barrier, that will not lose its protective qualities if exposed to 500°F (260°C) for 24 continuous hours. Interior Liner to be SteamGuard® bonded RipStop™ Nylon. Insulation: 100% cotton terry that has been scoured, tumbled dry and heat set to eliminate 97% of shrinkage, designed to handle 450°F (232°C)\*. Must be certified by NSF and meet NSF protocol # 96/011/480/2480 testing requirements for Class I oven mitts (thermal protection, an effective liquid/vapor barrier, durability, and cleanability).

\* Insulation threshold levels as determined by NSF P149 & EN407 testing standards, which will prove a "not less than 15 seconds to discomfort".
