

# TUCKER

SAFETY PRODUCTS INC.

## Ultimate Safety.... Approved for Foodservice

### Maximum Safety

The ultimate in wearer protection from multiple heat sources, wet and dry.

### Maximum Sanitation

Nomex® Protective Products with our VaporGuard® barrier can be machine washed to prevent soil build up, reduce the risk of cross contamination, and maximize product life cycle. Liner can be removed for washing and drying separately.

### Maximum Service

We design industry-leading products that can be trusted and that offer effective personal protection against burns or cuts throughout foodservice operations. We offer a one-year warranty against manufacturer's defects. If our customers are not 100% satisfied, we will work with them until they are.

### Maximum Savings

Our innovative, high-grade materials protect wearers better for a longer period of time. The mitts last 20 times longer than traditional cotton quilted oven products.

## Nomex® Conventional-Style Oven Mitt with Interchangeable Liner

### ITEM #:

06129, 06159, 06189, 06249

### SIZE:

Medium  
(additional sizes available upon request)

### LENGTH:

12", 15", 18", 24"

### COLOR:

Blue with Yellow GussetGuard™

### DESCRIPTION:

Nomex® Conventional-Style Oven Mitt with Interchangeable Liner

### PACK SIZE:

1 each

### SPECIFICATION:

Nomex® Conventional-Style Oven Mitt: Tucker Safety Products BurnGuard® Item #\_\_\_\_\_. Material: Nomex® (color blue). GussetGuard™ reinforcement. Standard size: Medium (additional sizes available upon request). Standard lengths: 12", 15", 18", and 24". Outer shell fabric permanently bonded with flame resistant, effective liquid and vapor barrier, that will not lose its protective qualities if exposed to 500°F (260°C) for 24 continuous hours. Insulation: 100% cotton terry that has been scoured, tumbled dry and heat set to eliminate 97% of shrinkage; designed to handle 450°F (232°C)\*. Must be certified by NSF and meet NSF protocol # 96/011/480/2480 for Class II oven mitts (thermal protection, open flame, an effective liquid/vapor barrier, durability, and cleanability).

\* Insulation threshold levels as determined by NSF P149 & EN407 testing standards, which will prove a "not less than 15 seconds to discomfort".
