

### Ultimate Safety.... Approved for Foodservice

Maximum Safety The ultimate in wearer protection from multiple heat sources, wet and dry.

Maximum Sanitation

Poly-Cotton Protective Products with our VaporGuard® barrier can be machine washed to prevent soil build up, reduce the risk of cross contamination, and maximize product life cycle. Liner can be removed for washing and drying separately.

Maximum Service We design industryleading products that can be trusted and that offer effective personal protection against burns or cuts throughout foodservice operations. We offer a one-year warranty against manufacturer's defects. If our customers are not 100% satisfied, we will work with them until they are.

#### Maximum Savings

Our innovative, high-grade materials protect wearers better for a longer period of time. The gloves last 20 times longer than traditional cotton quilted oven products.

# Poly-Cotton Three-Finger Plus Gloves with Kevlar<sup>®</sup> Palm with Interchangeable Liner

**ITEM #:** 57157, 57187

#### SIZE:

Medium (additional sizes available upon request)

**LENGTH:** 15", 18"

**COLOR:** Red with Yellow Hand

# **DESCRIPTION:**

Poly-Cotton with Kevlar<sup>®</sup> Three-Finger Plus Gloves with Interchangeable Liner

# PACK SIZE:

1 Pair

#### SPECIFICATION:

Poly-Cotton w/ Kevlar<sup>®</sup> Palm – Three-Finger Plus Style Oven Glove: Tucker Safety Products BurnGuard<sup>®</sup> Item #\_\_\_\_\_\_. Material Palm: Kevlar (color yellow); Material Sleeve: Poly-Cotton (color red). Standard size: Medium (additional sizes available upon request). Standard lengths: 15" and 18". Outer shell fabric permanently bonded with flame resistant, effective liquid and vapor barrier, that will not lose its protective qualities if exposed to 500°F (260°C) for 24 continuous hours. Insulation: 100% cotton terry that has been scoured, tumbled dry and heat set to eliminate 97% of the shrinkage with the palm area designed to handle 650°F (343°C)\*. Must be certified by NSF and meet NSF protocol # 96/011/480/2480 testing requirements for Class II oven mitts (thermal protection, open flame, an effective liquid/vapor barrier, durability, and cleanability).

\* Insulation threshold levels as determined by NSF P149 & EN407 testing standards, which will prove a "not less than 15 seconds to discomfort".
